## **AEDGE SECURES TWO ADDITIONAL CONTRACTS TOTALLING APPROXIMATELY US\$2.77 MILLION FROM A MAJOR OFFSHORE AND MARINE ENGINEERING GROUP**

- *Two additional contracts with a combined value of approximately US\$2.77 million (approximately S\$3.54 million)*
- *Total contracts secured from the same major offshore and marine engineering group now amount to approximately US\$4.28 million (approximately S\$5.47 million)*
- *Revenue expected to be progressively recognised through FY2026 and FY2027*

**SINGAPORE, 5<sup>th</sup> June 2026** – Aedge Group Limited (“**Aedge**” or the “**Company**”, and together with its subsidiaries, the “**Group**”) is pleased to announce that its engineering services business has secured two additional contracts with a combined value of approximately US\$2.77 million from the same major offshore and marine engineering group, following the Group’s initial contract win announced on 13 March 2026.

Under the two contracts, the Group will supply specialised grating systems and related components for use in two separate offshore and energy infrastructure projects. The two projects will run concurrently, with revenue anticipated to be recognised progressively over their respective delivery periods. The first project is targeted for completion by June 2027 and the second by December 2027.

The Group’s initial contract, announced on 13 March 2026, is progressing on schedule and was approximately 15% complete as at 5 June 2026, remaining on track for progressive completion by December 2026. Together with this initial contract, the Group has now secured a total of three contracts from this major offshore and marine engineering group, with an aggregate contract value of approximately US\$4.28 million. These awards reflect the Group’s growing presence and deepening relationships within the offshore, marine and energy-related engineering ecosystem, supporting large-scale industrial and infrastructure projects.

Commenting on the contract win, **Mr Poh Soon Keng, Executive Chairman and Chief Executive Officer**, said: “We are delighted to receive these two additional contract awards from the same client, which demonstrates the confidence they have placed in the Group’s capabilities and our ability to execute reliably on large-scale industrial and energy infrastructure projects.

These new contracts, combined with the contract secured in March 2026, further strengthen our engineering services pipeline and enhance our revenue visibility through end-2026. We look forward to delivering all projects safely and efficiently, while continuing to pursue further opportunities in the offshore, marine and infrastructure sectors.”

Barring any unforeseen circumstances, the contracts are expected to have a positive impact on the Group’s revenue and earnings for FY2026, FY2027 and FY2028, corresponding with the progressive delivery of the projects.
