6M08 vs 6M07 (6 months)

Revenue

Group's revenue decreased by 5.20% to RMB 407.0 million from RMB 429.3 million for the 6 months ended 30 June 2008. The decrease in revenue was due mainly to a decrease in revenue from the Zipper Sliders segment.

Zipper Chain

Revenue from the Zipper Chain segment increased by 16.65% to RMB 276.6 million from RMB 237.1 million for the 6 months ended 30 June 2008. This is a result of a change in focus from zipper chains to finished zippers which had better gross profit margin than the zipper chains.

Zipper Sliders

Revenue from the Zipper Sliders segment decreased by 32.15% to RMB 130.4 million from RMB 192.2 million for the 6 months ended 30 June 2008 mainly due to a decrease in the average selling price of our zipper sliders, which was caused by an adjustment in response to the decrease in the average cost of zinc, the main raw material used in the production of zipper sliders.

Gross Profit

Group's gross profit for the 6 months under review decreased marginally by 0.28% to RMB 152.8 million from RMB 153.3 million for the 6 months ended 30 June 2008.

The increase in gross profit of RMB 25.1 million from the zipper chains segment was offset by a decrease in gross profit of RMB 25.5 million from zipper sliders segments. The gross profit increase in zipper chains segment was due to an increase in the sales of finished zippers, from approximately 21% in 2007 to approximately 31% in the current period.

The increase in gross profit from the zipper chains segment was however offset by the reduction in gross profit from the zipper sliders segment. The gross profit from the zipper sliders segment decreased by RMB 25.5 million from RMB 61.8 million for 6 months ended 30 June 2007 to RMB 36.3 million for the current period.

Overall, gross profit margin increased from 35.70% for the 6 months ended 30 June 2007 to 37.55% for the current period due to an increase in the gross profit margin of zipper chains segment from 38.56% for 6 months ended 30 June 2007 to 42.14% for the current period. The increase in gross profit margin of the zipper chains segment was a result of Group's focus to expand its production capacity for the finished zippers which had better gross profit margin than the zipper chains.

However, the gross profit margin from zipper sliders segment decreased from 32.17% for the 6 months ended 30 June 2007 to 27.83% for the current period. In addition, the Group also utilized its existing zinc inventory which were purchased at a higher price prior to the drop in zinc cost for part of its production.

Other income

Other income comprised of mainly write back of allowance for doubtful trade receivables provision and sale of scrap materials. The decrease of RMB 11.9 million for the 6 months ended 30 June 2008 (RMB 2.2 million) compared to the same period of last year (RMB 14.1 million) was due mainly to the write back of allowance for doubtful trade receivables from RMB 12.9 million in 2007 to RMB2.0 million in the current period.

Selling and distribution expenses

Selling and distribution expenses comprised mainly entertainment expenses, traveling expenses of our sales & marketing staff, transportation costs incurred for deliveries to our customers and salaries of our sales & marketing personnel. The increase of 83.66% or RMB1.1 million for the 6 months ended 30 June 2008 (RMB2.3 million) compared to the same period of last year (RMB1.2 million) was due mainly to an increase in the number of sales staff in order to promote the sale of finished zipper chains.

General and administrative expenses

General and administrative expenses increased by 86.15% or RMB3.9 million for the 6 months ended 30 June 2008 (RMB 8.5 million) compared to the same period of last year (RMB 4.6 million). The increase is attributable to salaries increase and employment of additional technical and management staff to improve the Group's operational efficiency and internal controls. Furthermore, the new subsidiary – Qingdao plant was in full operation this quarter which resulted in a significant increase in expenses.

Interest expenses

Interest expenses decreased by 28.64% or RMB 1.1 million for the 6 months ended 30 June 2008 (RMB 2.7 million) compared to the same period of last year (RMB 3.8 million) mainly due to a decrease in short-term bank loan and bills payable by RMB 12.1 million.

Foreign exchange gain

The exchange gain arose mainly from the consideration paid for the investment in Qingdao plant which was denominated in HKD 23.6 million and the translation of bank balance from YEN to RMB during the current period.

NM : Not Meaning

Although the corporate tax rate has been reduced from 27% to 25% with effect from January 08, our tax expense increased by 17.86% or RMB 7.0 million for the 6 months ended 30 June 2008 (RMB 46.1 million) compared to the same period of last year (RMB 39.1 million) due to a new withholding tax ruling introduced by the PRC government. The new ruling, which impacts all companies incorporated in the PRC, states that any profit attributable to equity after 1 January 2008 should withhold a 10% tax to be paid to the government in the event of a dividend payout. The Group has taken a conservative stand and has made a full 10% withholding tax provision based on the total net profit attained in 1H 2008.

2Q08 vs 2Q07 (3 months)

Revenue

Group's revenue decreased by 7.33% to RMB 216.9 million in 2Q08 from RMB 234.1 million in 2Q07. The decrease in revenue was due mainly to a decrease in sales from the zipper sliders segment.

Zipper Chain

Revenue from the Zipper Chain segment increased by 14.09% to RMB 148.3 million in 2Q08 from RMB 129.9 million in 2Q07. This is a result of a change in focus from zipper chains to the finished zippers which had better gross profit margin than the zipper chains.

Zipper Sliders

Revenue from the Zipper Sliders segment decreased by 34.05% to RMB 68.7 million in 2Q08 from RMB 104.2 million in 2Q07 due mainly to a decrease in the average selling price of our zipper sliders which was caused by an adjustment in response to the decrease in the average cost of zinc, being the main raw material used in the production of zipper sliders.

Gross Profit

Group's gross profit for the 3 months under review has also decreased by 2.23% to RMB 81.9 million in 2Q08 from RMB 83.8 million in 2Q07.

The decrease in gross profit was due mainly to a decrease in gross profit from the zipper sliders segment. The gross profit from zipper sliders segment decreased by RMB 15.7 million from RMB 34.9 million in 2Q07 to RMB 19.2 million in 2Q08. The decrease was in tandem with the reduction in sales revenue.

The decrease in gross profit from the zipper sliders segment was however partially offset by the increase in gross profit from the zipper chains segment from RMB 48.9 million in 2Q07 to RMB 62.8 million in 2Q08. The increase in gross profit of the zipper chains segment was a result of the Group's focus to expand its production capacity for the finished zippers which had better gross profit margin than the zipper chains.

Overall gross profit margin increased from 35.79% in 2Q07 to 37.76% in 2Q08 due to an increase in the gross profit margin of zipper chains segment from 37.61% in 2Q07 to 42.34% in 2Q08. The increase in gross profit margin of the zipper chains segment was a result of Group's focus to expand its production capacity for the finished zippers which had better gross profit margin than the zipper chains.

However, the gross profit margin from zipper sliders segment decreased from 33.52% in 2Q07 to 27.88% in 2Q08. In addition, the Group also utilized its existing zinc inventory which were purchased at a higher price prior to the drop in zinc cost for part of its production.

Other income

The decrease in other income was mainly due to the write back of allowance for doubtful trade receivables reduced from RMB29.8 million in 2007 to RMB2.0 million in the current period.

Selling and distribution expenses

The increase in selling and distribution expenses was due mainly to an increase in the number of sales staff in order to promote the sale of finished zipper chains.

General and administrative expenses

The increase in general and administrative expenses was attributable to salaries increase and employment of additional technical and management staff to improve the Group's operational efficiency and internal controls. Furthermore, the new subsidiary – Qingdao plant has started full operation in this quarter which resulted in a significant increase in expenses.

Interest expenses

The decrease in interest expenses mainly due to a decrease in short-term bank loan and bills payable.

Foreign exchange gain

The exchange gain arose mainly from the consideration paid for the investment in Qingdao plant which was denominated in HKD 23.6 million and the translation of bank balance from YEN to RMB during the current period.

NM : Not Meaning

Although the corporate tax rate has been reduced from 27% to 25% with effect from January 08, our tax expense increased by 40.70% or RMB 8.6 million for the 6 months ended 30 June 2008 (RMB 29.7 million) compared to the same period of last year (RMB 21.1 million) due to a new withholding tax ruling introduced by the PRC government. The new ruling, which impacts all companies incorporated in the PRC, states that any profit attributable to equity after 1 January 2008 should withhold a 10% tax to be paid to the government in the event of a dividend payout. The Group has taken a conservative stand and has made a full 10% withholding tax provision based on the total net profit attained in 2Q 2008.

FINANCIAL POSITION

Non-current assets

As at 30 June 2008, our non-current assets amounted to RMB 150 million which comprised property, plant and equipment as well as intangible assets such as land use rights and computer software.

The increase in non-current assets by RMB 21 million in 2Q08 was due mainly to an addition of plant, machinery, motor vehicles and office equipment resulted from the acquisition of Qingdao plant.

Current assets

As at 30 June 2008, our current assets increased by 4.2% (RMB 45 million). Trade receivables increased by RMB 66 million due to most of customers' orders took place after February 2008 (i.e., after lunar new year). As our Group's normal credit period is from 90 days to 120 days, most of the trade receivables remain outstanding as at 30 June 2008. Other receivables and prepayments has slightly decreased by RMB 9 million due to the drawdown of advances previously made to suppliers to secure a stable stream of raw material supplies.

Cash and bank balances decreased from RMB 450 million as of 31 December 2007 to RMB 434 million as of 30 June 2008 arose from the payment of dividend in the current period.

Current liabilities

As at 30 June 2008, our current liabilities amounted to RMB240 million, which was 3.3% or RMB 7.7 million more than FY2007. The increase was mainly due to the new ruling, which impacts all companies incorporated in the PRC, states that any profit attributable to equity after 1 January 2008 should withhold a 10% tax to be paid to the government in the event of a dividend payout.

Cash Flow

Our cash and cash equivalents decreased due to the payment of dividends and advances to suppliers in order to purchase materials at a lower price.

9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.

No forecast or prospect statement had been disclosed to shareholders previously.

10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

External economic condition is challenging and this is expected to impact on our export business. The increase in minimum wages imposed by the local government together with high inflation will continue to put pressure on our cost and gross profit margin.

The Group is one of the few vertically integrated manufacturers in the PRC, with the capacity and capital to produce the full range of zipper products, from upstream zipper components such as zipper chain and sliders to downstream products such as finished zippers. Moving ahead, the Group will continue to focus on moving up the value chain and to expand its production capacity in order to gain better margins from finished zippers and zipper products. This will enable the Group to maintain its profit margin as a result.

In June 2008, the Group has completed trial production of finished zippers in its new Shanghai plant, which has been set up to expand our customer base in the PRC. The Shanghai plant will commence production by the 4Q08.

13. Status of applications for the Land Used Right and building ownership certificates relating to Land 1 and Land II

There has been no change in the status of applications for the land use right and building ownership certificates since last reported in the 3rd quarter results ended 30 September 2007.

For Land I, the application for land use right has been accepted by the Jinjiang State Owned Land Resource Bureau. On 25 September 2007, Jinjiang State Owned Land Resource Bureau issued a directive to the Group to pay a fee of approximately RMB4.0 million for the change of the land use purpose from agriculture land to industrial land. The official land use right will be granted within 2 weeks from the date of signing the relevant change of land use document and payment date.

For Land II, the application for the land use right has been submitted to the Jinjiang City Government upon our payment for the 30% deposit in March 2007. The application is still pending approval by the Fujian Provincial Government before sending to Jinjiang State Owned Land Resource Bureau for final processing.

Notes:

Land I and II – as defined in the “Risk Factors” section of the Company’s prospectus dated 13 September 2007

Land I : refers to the adjoining land to the Group’s premises currently used for its factory, warehouse office and accommodation

Land II : refers to a new site to be used for the setting up of its head office in Jinjiang City

14. Use of IPO proceeds
