## **1H2010 vs. 1H2009 (6 months)**

### **Revenue**

The Group's revenue increased by RMB 111.1 million (or 55%) to RMB 312.4 million. The increase in revenue was due mainly to the increase in sale of the Finished Zippers (RMB 2.4 million), Zipper Chains (RMB 55.2 million) and Zipper Sliders segment (RMB 23.8 million) (collectively referred as the "Zipper Segment") as well as the Trading segment (RMB 35.1 million). This was partially offset by the decrease in revenue derived from the Knitting Wool segment (RMB 5.4 million).

The increase in revenue from the Zipper Segment was attributable to the increase in orders from both local customers as well as overseas customers as a result of the recovering economy.

The decrease in revenue for the Knitting Wool segment was due mainly to the discontinuation of its operation in April 2010.

### **Gross Profit and Gross Profit Margin**

Group's gross profit increased by RMB 23.9 million (or 66%) to RMB 60.0 million. The increase in gross profit from the Zipper Segment was due mainly to the increase in revenue from both local and export business as a result of the recovering economy.

Overall, gross profit margin increased by 1.3% to 19.2 % attributable to an increase in the gross profit margin of the Zipper Segment. The increase was a result of the slight increase in selling price over the cost of sales.

### **Other income and other expenses**

Other income comprises rental income and government subsidies while other expenses consist mainly of foreign exchange loss. The net decrease was due mainly to increase in foreign exchange loss as a result of the appreciation of RMB against Hong Kong Dollar.

### **Selling and distribution expenses**

Selling and distribution expenses increased by RMB 0.5 million (or 32%) to RMB 2.2 million. The increase was due mainly to the increase in the sales volume and increase in advertising expenses incurred for the sales promotion of the Group's products.

### **General and administrative expenses**

General and administrative expenses increased by RMB1.5 million (or 12%) to RMB 14.4 million. The increase was due mainly to an increase in salaries but partly offset by a decrease in provision for doubtful debts.

### **Finance income and expenses**

Finance expenses decreased by RMB 2.9 million (or 62%) to RMB 1.8 million. This was attributable to the decrease in bills payable to banks as most of them had been repaid in June 2009, partly off-set by the interest incurred from the new short-term loan drawn down during the period. The decrease in finance income was due mainly to the decrease in placement of foreign currency denominated fixed deposit in 2010.

### **Income tax expense**

	Group

Deferred tax <sup>2</sup>	3,667	1,865	97
Income tax expense	16,728	8,320	101

Notes

<sup>1</sup> Current tax increased by RMB 6.6 million or 102% due to an increase in profit before taxation in 1H2010.

<sup>2</sup> On 22 February 2008, the State Administration of Taxation of China issued a circular Caishui 2008 No.001, which states that distribution of dividends from profits accumulated from 1 January 2008 onwards shall be subject to withholding tax on distribution to foreign investors. Accordingly, the Group has provided for deferred tax liabilities on the Group's profit-making PRC subsidiaries' net profit attained from 1 January 2008 onwards. As Jade Star (the PRC's subsidiaries' immediate holding Company) was incorporated in the British Virgin Islands, the applicable withholding tax rate is 10%.

**2Q2010 vs. 2Q2009 (3 months)****Revenue**

The Group's revenue increased by RMB 83.4 million (or 69%) to RMB 204.3 million. The increase in revenue was due mainly to the increase in sale of the Finished Zippers (RMB 0.4 million), Zipper Chains (RMB 35.9 million) and Zipper Sliders segment (RMB 20.1 million) (collectively referred as the "Zipper Segment") as well as the Trading segment (RMB 31.2 million). This was partially offset by the decrease in revenue derived from the Knitting Wool segment (RMB 4.2 million).

The increase in revenue from the Zipper Segment was attributable to the increase in orders from both local factories and exports sales as a result of the recovering economy. The increase in revenue from the Trading segment was due to the increase in demand for raw materials in PRC.

The decrease in revenue for the Knitting Wool segment was due mainly to the discontinuation of its operation in April 2010.

**Gross Profit and Gross Profit Margin**

The Group's gross profit increased by RMB 18.1 million (or 99%) to RMB 36.6 million. The increase in gross profit from the Zipper Segment was due mainly to the increase in revenue from both local and export business as a result of the recovering economy.

Overall, gross profit margin increased by 2.7% to 17.9 % due to an increase in the gross profit margin of the Zipper Segment. The increase in gross profit margin of the Zipper segment was a result of the slight increase in selling price over the cost of sales.

Small gross loss was incurred for Knitting Wool Segment as the Group fulfilled its last orders and terminated this operation in April 2010.

**Other income and other expenses**

Other income comprises rental income and government subsidies while other expenses consist mainly of foreign exchange loss. The net increase was due mainly to the increase in foreign exchange loss in 2Q2010 as a result of appreciation of RMB against Hong Kong Dollar and United States Dollar

**Selling and distribution expenses**

Selling and distribution expenses increased by RMB 0.3 million (or 31%) to RMB 1.3 million, in line with the increase in sales volume as well as increase in advertising expenses incurred for the sales promotion of the Group's products.

**General and administrative expenses**

General and administrative expenses increased by RMB 1.9 million (or 25%) to RMB 9.4 million. The increase was due mainly to an increase in salaries but partly offset by a decrease in provision for doubtful debts.

**Finance income and expenses**

Finance expenses decreased by RMB 1.3 million (or 60%) to RMB 0.8 million. This was attributable to the decrease in bills payable to banks as most of them had been repaid in June 2009, partly off-set by the interest incurred from the new short-term loan drawn down during the period. The decrease in finance income was due to the decrease in placement of foreign currency denominated fixed deposits in 2010.

## FINANCIAL POSITION

### Non-current assets

As at 30 June 2010, non-current assets amounted to RMB 276.7 million comprising property, plant and equipment, investment property, land use rights, intangible assets and deferred tax assets.

The Group's property, plant and equipment as at 30 June 2010 amounted to RMB 180.4 million, a decrease of 4% (or RMB 8.0 million) compared to that as at 31 December 2009. The decrease was due mainly to depreciation.

### Current assets

Current assets increased by RMB 56.8 million (or 6%) to RMB 1.1 billion as at 30 June 2010. This was largely due to an increase in inventories, trade receivables, cash and bank balances which was offset by the decrease in other receivables and prepayments.

Inventory increased by RMB 11.9 million due to increase in inventory level to fulfill the sales order in the coming quarter. Trade receivables increased by RMB 63.3 million in tandem with the increase in turnover in 2Q2010.

The decrease in other receivables and prepayments by RMB 31.2 million was due mainly to a decrease in advances made to suppliers.

### Current liabilities

Current liabilities increased by RMB 56.4 million (or 48%) to RMB 173.4 million as at 30 June 2010. This was attributable to the increase in trade payables, short-term bank loans and bank overdrafts which was offset by the decrease in bills payable.

The increase in amount due to directors by RMB 14.0 million was due to the cash paid on behalf of the Group in settlement of the interim dividend payment in June 2010, a temporary measure due to a longer time period required to remit the interim dividend payment from RMB to Singapore Dollars under the foreign exchange restriction policy in the PRC. The amount had since been repaid to directors in July 2010. The increase in short-term bank loans was due mainly to the expansion of trading operation in Hong Kong.

The increase in trade payables by RMB 23.6 million was due to an increase in purchase of raw materials in line with the increase in production volume in 2Q2010. Short-term bank loans and bank overdrafts increased due to an additional banking facility obtained from bank in 2Q10, which was mainly used for the trading operation in Hong Kong.

Most of the bills payables were repaid in 2Q2010.

### Non-current liabilities

Non-current liabilities, which comprise convertible notes, term loan and deferred tax liabilities, increased by RMB 2.5 million (or 3%) to RMB 75.9 million as at 30 June 2010. The convertible notes were issued in September 2009 and are due in September 2011. The term loan was raised for the acquisition of an investment property in Hong Kong which was announced on 26 November 2009 (announcement no: 00077). The increase in deferred tax liabilities was due mainly to the increase in withholding tax as explained above under the notes for income tax expense.

## Review of Cash Flows

### 1H2010

Net cash flows generated from operating activities amounted to a healthy RMB 41.7 million, as operating profit recorded at RMB 42.6 million. The cash used to invest in higher inventories and trade receivables in 1H2010 of RMB 75.8 million were offset by the cash released from other receivables/prepayments, depreciation charge, higher trade and other payables, amount owing to a director, totaling RMB 82.7 million.

Net cash flows used in financing activities amounted to RMB 27.1 million largely due to payment of outstanding bills payable of RMB 28.1 million and dividend payments of RMB 33.1 million, supported by proceeds from short term loans taken up of RMB 30.6 million.

2Q2010

Net cash flows used in operating activities amounted to RMB 16.2 million due mainly to the increase in trade receivables as a result of increase in sale in 2Q2010 as well as higher inventories to meet the sales orders. The increase was offset by cash released from other receivables.

Net cash flows used in investing activities amounted to RMB 3.0 million due to the purchase of machineries and equipment in current quarter. In 2Q09, the Group completed construction of a staff hostel and enhancement of the electricity supply system

Net cash flows of RMB 0.8 million generated from financing activities in 2Q2010 was due to an additional banking facility of RMB 30.6 million obtained in 2Q2010. The banking facility was mainly used for trading operation in Hong Kong and bills payables of RMB 7.8 million. This was offset by dividend payments of RMB33.1 million, share buyback of the Company's shares of RMB 3.5 million and repayment of term loan and bills payable amounting to RMB1.3 million. Negative cash flows were recorded from financing activities in 2Q2009 due mainly to the repayment of short-term bank loans and bills payable amounting to RMB153.5 million in 2Q2009.

**10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.**

With the positive signs on the recovery of the economy, the Group is confident of an increase in demand from both the PRC customers and export oriented garment factories in 2010. The Group, however, expects its labour cost to increase due to the tightening of labour supply along coastal cities in the PRC, and will continue to adjust its pricing accordingly.

The Group will continue to work towards improving its operational efficiencies by continuing to work on its process automation. The Group had successfully registered a new product – Super Durable Zipper patent which the Group had commenced marketing to its customers. The Group intends to scale up production by investing up to RMB 20 million for 100 sets of machinery planned by end FY2010, with an estimated maximum capacity of 2400 tons per annum.
