## **9M2014 vs. 9M2013**

### **Revenue**

The Group's revenue decreased by RMB 21.6 million (or 5%) to RMB 432.3 million. The decrease was due mainly to the decrease in revenue of the Zipper Chain segment (RMB 23.6 million), the Trading segment (RMB 6.2 million) and the Processing segment (RMB 0.1 million). This was partially offset by the increase in revenue contributions from the Zipper Slider segment (RMB 8.6 million).

The inter-segment sales elimination represented the dyeing and electroplating services provided by the Processing segment to the Zipper segment.

The decrease in revenue from the Zipper Chain segment and the Processing segment in 9M2014 was attributable to a deteriorating market for the zipper industry in the PRC which was adversely affected by the general slowdown in the global economy. This had resulted in the Group reducing its selling prices to retain customers' orders. The average selling prices in the Zipper Chain segment had decreased by 12% per kg while the sales volume had increased by 3%.

The increase in revenue from the Zipper Slider segment in 9M2014 was attributable to an increase in sales order from new customers arising from the efforts of the Group's sales department following its re-organisation focusing on developing new customers' channels.

The Group's Trading segment relates to the sourcing and buying of certain raw materials in accordance to customers' requirements. The profit margin and all purchases are based on confirmed sales, i.e. the Group does not hold any inventories. As such, the volume of trading depends on the opportunities available so as the profitability and price movements which are dependent on customers' demand for raw materials. The decrease in revenue from the Trading segment was due to a decrease in sales orders from customers during 9M2014.

### **Gross Profit and Gross Profit Margin**

The Group's gross profit increased by RMB 4.1 million (or 11%) to RMB 39.9 million. The increase was due mainly to the decrease in factory overheads arising from partial automation of the Group's production process.

Average gross profit margin increased by 1.3 percentage points to 9.2% in 9M2014 due mainly to the cost savings achieved in the Zipper segment arising from the partial automation as mentioned above.

### **Other income and other expenses**

Other income mainly comprises government subsidies, write-back of specific provision for bad debts in FY2013 as a result of successful collections from customers and foreign exchange gains. The net income represented the increase in foreign exchange gain as a result of the depreciation of RMB against USD and SGD arising from the balance in the Company's bank account.

### **Selling and distribution expenses**

Selling and distribution expenses decreased by RMB 0.8 million (or 13%) to RMB 5.1 million. The decrease was due mainly to a reduction in headcount following the re-organisation of the Group's sales department.

### **General and administrative expenses**

General and administrative expenses decreased by RMB 38.9 million (or 50%) to RMB 38.8 million. This was mainly due to the RMB13.5 million decrease in amortization of intangible assets expense on lower intangible assets in 9M2014 and absence of impairment of intangible assets and inventory written down expenses in 9M2014.

The increase in allowance for doubtful debts of RMB 4.7 million was due mainly to requests for a longer credit period from some customers. These customers are not the Group's major

customers

### Finance income and expenses

Finance expenses increased by RMB 0.1 million (or 2%) to RMB 5.5 million. This was attributable to the increase in short-term loans, and bill transactions with banks. Finance income increased by RMB 0.1 million (or 7%) to RMB 1.5 million was due mainly to the increase in cash and bank balance.

### Tax expense

Deferred tax <sup>2</sup>	3,061	656	367
Tax expense	5,586	3,029	84

### Notes:

<sup>1</sup> Current tax increased by RMB 0.2 million or 6% due to a increase in taxable profit before taxation in 9M2014

<sup>2</sup> On 22 February 2008, the State Administration of Taxation of China issued a circular Caishui 2008 No.001, which states that distribution of dividends from profits accumulated from 1 January 2008, shall be subject to withholding tax on distribution to foreign investors. Accordingly, the Group has provided for deferred tax liabilities on the Group's profit-making PRC subsidiaries' net profit attained from 1 January 2008 onwards. As Jade Star (the PRC's subsidiaries' immediate holding Company) is incorporated in the British Virgin Islands, the applicable withholding tax rate is 10%.

### 3Q2014 vs. 3Q2013 (3 months)

#### Revenue

The Group's revenue decreased by RMB 0.3 million (or 0.2%) to RMB 165.0 million. The decrease was due mainly to the decrease in revenue of the Zipper Chain segment (RMB 14.8 million). This was partially offset by the increase in revenue contributions from the Zipper Slider segment (RMB 0.8 million), the Trading segment (RMB 7.4 million) and the Processing segment (RMB 5.7 million).

The inter-segment sales elimination represented the dyeing and electroplating services provided by the Processing segment to the Zipper segment.

The decrease in revenue from the Zipper Chain segment in 3Q2014 was attributable to a deteriorating market for the zipper industry in the PRC which was adversely affected by the general slowdown in the global economy. This had resulted in the Group reducing its selling prices to retain customers' orders.

The increase in revenue from the Zipper Slider segment in 3Q2014 was attributable to an increase in sales order from new customers arising from the efforts of the Group's sales department following its re-organisation.

The increase in revenue from the Trading segment and the Processing segment was due to an increase in sales orders from customers during 3Q2014, as a result of lower selling prices.

#### Gross Profit and Gross Profit Margin

The Group's gross profit decreased by RMB 1.4 million (or 10%) to RMB 13.3 million. The decrease in gross profit was due mainly to the decrease in revenue and slight increase in overheads.

Average gross profit margin decreased by 0.9% percentage points to 8.0% due to a decrease in gross profit margin from the Zipper segment in 3Q2014 arising from the higher production costs as a result of increase in staff wages.

#### **Other income and other expenses**

Other income mainly comprises government subsidies, write-back of specific provision for bad debts in FY2013 as a result of successful collections from customers and foreign exchange gains. The net income represented the increase in foreign exchange gain as a result of the depreciation of RMB against USD and SGD arising from the balance in the Company's bank account.

#### **Selling and distribution expenses**

Selling and distribution expenses increased by RMB 0.2 million (or 9%) to RMB 2.0 million. The increase was due mainly to an increase in advertising and promotional activities.

#### **General and administrative expenses**

General and administrative expenses decreased by RMB 28.7 million (or 73%) to RMB 10.7 million. This was mainly due to the RMB4.5 million decrease in amortization of intangible assets expense on lower intangible assets in 3Q2014 and absence of impairment of intangible assets expense in 3Q2014.

The increase in allowance for doubtful debts of RMB 4.7 million was due mainly to requests for a longer credit period from some customers. These customers are not the Group's major customers

#### **Finance income and expenses**

Finance income increased by RMB 0.1 million to RMB 0.4 million due mainly to an increase in cash and bank balances.

Finance expense remained relatively flat at RMB1.9 million for 3Q2014 and 3Q2013.

#### **Tax expense**

## FINANCIAL POSITION

### Non-current assets

As at 30 September 2014, non-current assets amounted to RMB 595.7 million comprising property, plant and equipment, investment property, land use rights, intangible assets and prepayments.

The Group's property, plant and equipment amounted to RMB 300.4 million, a decrease of 8% (or RMB 24.5 million) compared to RMB 324.9 million as at 31 December 2013. The decrease was due mainly to depreciation expenses.

The increase in investment property was due to the construction of the Company's Xiamen Headquarter project during 9M2014.

The decrease in intangible assets was due mainly to the amortization expenses.

The prepayment balance as at 30 September 2014 represented the deposits paid for purchases of machinery.

### Current assets

As at 30 September 2014, current assets amounted to RMB 695.5 million, an increase of 3% (or RMB 17.8 million) compared to RMB 677.7 million as at 31 December 2013. This was due largely to an increase in inventories, prepayments, cash and bank balances which were offset by the decrease in bank deposits, trade and other receivables.

Inventories increased by RMB 18.8 million (or 29%) to RMB 83.7 million was due to the accumulation of inventory as a result of the decline in sales in 3Q2014 while production still continued on an optimal scale to cover its manufacturing overheads. Moreover, the Group held a 3-month raw materials requirement for the purpose of production efficiency compared to 2-month raw materials requirement as at 31 December 2013.

Trade and other receivables decreased by RMB 12.0 million (or 6%) to RMB 203.5 million was in line with the decrease in revenue from the Zipper segment.

The increase in prepayments to suppliers by RMB 10.8 million (or 14%) to RMB 88.6 million was due mainly to an increase in demand for raw materials as a result of an increase in production capacity. For advances to suppliers, the Group will secure signed supply agreements with its various suppliers. The advance payments in the supply agreements are calculated based on a certain percentage of the total contract price.

Bank deposits declined by RMB 25.3 million (or 38%) to RMB 41.2 million due mainly to the decrease in security for bills payables as a result of decrease in bills transactions with banks in 3Q2014.

### Current liabilities

As at 30 September 2014, total current liabilities were RMB 508.4 million, an increase of 3% (or RMB 16.1 million) compared to RMB 492.3 million as at 31 December 2013. This was mainly attributable to the increase trade payables, short term bank loans, bank overdraft which were offset by the decrease in bills payable to banks, income tax payable, amount due to a Director, other payables and accruals.

Trade payables increased by RMB 5.6 million (or 65%) to RMB 14.3 million due mainly to an increase in demand for raw materials as a result of an increase in production capacity.

Bills payables decreased by RMB 32.1 million (or 21%) to RMB 117.7 million due to the

Group's settlement of some bills payables during 9M2014.

Other payables and accruals decreased by RMB 33.8 million (or 19%) to RMB 146.0 million due to the decrease in advances received from customers.

The short-term bank loans increased by RMB 69.1 million (or 48%) to RMB 211.8 million was due mainly to a new bank loan of RMB60 million secured for the financing of the Group's Xiamen Headquarters project.

Bank overdrafts represented the drawdown of the banking facilities from Hang Seng Bank.

The amount due to a Director was due to funds contributed by Mr Hong Qing Liang for the Group's Xiamen Headquarters construction project. The construction costs were paid by Mr Hong from his personal bank account in Hong Kong first and reimbursed by the Company. This arrangement was undertaken as the local government of Xiamen Island will impose an interest tax on all monies transferred from other locations within the PRC. Remittances from Hong Kong and foreign countries are exempted from such tax.

### **Non-current liabilities**

Non-current liabilities comprise deferred tax liabilities. The increase in deferred tax liabilities was due mainly to the increase in withholding tax as explained above under the note for tax expense.

## **CASH FLOW**

### **Operating activities**

Net cash flows used in operating activities in 9M2014 amounted to RMB 49.8 million while net cash flows generated from operating activities in 9M2013 amounted to RMB 10.5 million. This was due mainly to the increase in inventories, prepayments, and decrease in other payables and accruals.

Net cash flows generated from operating activities in 3Q2014 amounted to RMB 31.1 million while net cash flows used in operating activities in 3Q2013 amounted to RMB 12.2 million. This was due mainly to the decrease in trade and other receivables in 3Q2014 compared to the increase in trade and other receivables in 3Q2013.

### **Investing activities**

Net cash flows used in investing activities in 9M2014 amounted to RMB 27.7 million compared to RMB 42.1 million in 9M2013 was mainly due to the decrease in purchase of property, plant and equipment in 9M2014.

Net cash flows used in investing activities in 3Q2014 amounted to RMB 13.4 million compared to RMB 8.4 million in 3Q2013 was mainly due to the increase in construction cost of investment properties in 3Q2014.

### **Financing activities**

Net cash flows generated from financing activities in 9M2014 amounted to RMB 94.2 million compared to RMB 68.6 million in 9M2013. This was due mainly to the proceeds from short-term bank loans of RMB 60.0 million for the Xiamen Headquarters project in 1Q2014 and also the decrease in bank deposits.

Net cash flows generated from financing activities in 3Q2014 amounted to RMB 14.4 million compared to RMB 5.7 million in 3Q2013. This was due mainly to the short-term bank loan and banking facilities obtained from China CITIC Bank and Hang Seng Bank in 3Q2014.

**9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.**

The performance for 3Q2014 and 9M2014 is in line with the commentary made in item 10 of the Company's results announcement dated 14 August 2014.

**10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.**

For the nine months ended 30 September 2014 ("9M2014"), the Group continued to operate under a highly competitive and challenging environment as the zipper industry in the PRC faces intense competition with thin profit margins. Apart from the challenging and competitive business environment, the Group also faces weak demand for zippers as most of its customers still hold a high level of inventories in their warehouses. As such, the Group had to lower its selling prices to retain customers and attempt to increase sales orders.

The average utilization rates of the Group's production facilities in 9M2014 for zipper chains and zipper sliders were approximately 74% and 62% respectively.

For the three months ended 30 September 2014 and 9M2014, the Group managed to record a profit before tax despite the challenging market conditions. This was as a result of the partial automation of the Group's production processes which has been cost effective and resulted in lower production overheads.

Notwithstanding the above, the Group expects the zipper industry to remain highly challenging and competitive and does not expect the business environment to improve considerably for the rest of the year. The Group expects the continuation of the slowing economic growth in the PRC, uncertainties for export sales, as well as cost pressures arising from rising production and labour costs. These factors will affect the Group's operating outlook for the next twelve months.

The Group will continue to strive to enhance its operational efficiency of its plants through automation of its production processes, so as to mitigate the impact of weak demand to the Group's gross profit margins. The Group will also continue to exercise tight control on the administrative expenses and strive to lower its production unit cost.

Update on Construction progress of the Company's Xiamen Headquarter

The construction work for the Company's Xiamen Headquarters basement (comprising 4 levels) has commenced in 1Q2014 and as of to-date, the Company's Xiamen Headquarters is approximately 15% completed.
