9M2015 vs. 9M2014

Revenue

The Group's revenue increased by RMB 64.7 million (or 15%) to RMB 497.0 million. The increase was due mainly to the increase in revenue of the Trading segment (RMB 94.3 million). This was partially offset by the decrease in revenue contributions from the Zipper Chain segment (RMB 12.5 million), the Zipper Slider segment (RMB 7.3 million), and the Processing segment (RMB 6.9 million).

The inter-segment sales elimination represented the dyeing and electroplating services provided by the Processing segment to the Zipper segment.

The decrease in revenue from the Zipper segment and the Processing segment in 9M2015 was attributable to a slow market for the zipper industry in the PRC which was adversely affected by the general slowdown in the global economy. This had resulted in the Group reducing its selling prices to retain customers' orders. The average selling prices in the Zipper Chain segment had decreased by 8% per kg while the sales volume had increased by 3%.

The Group's Trading segment relates to the sourcing and buying of certain raw materials in accordance to customers' requirements. The profit margin and all purchases are based on confirmed sales, i.e. the Group does not hold any inventories. As such, the volume of trading depends on the opportunities available so as the profitability and price movements which are dependent on customers' demand for raw materials. The decrease in revenue from the Trading segment was due to an increase in sales orders from customers during 9M2015.

Gross Profit and Gross Profit Margin

The Group's gross profit decreased by RMB 4.9 million (or 12%) to RMB 35.0 million. The decrease was due mainly to the increase in factory overheads.

Finance expenses increased by RMB 3.3 million (or 60%) to RMB 8.9 million. This was attributable to the increase in short-term loans. Finance income decreased by RMB 0.1 million (or 6%) to RMB 1.4 million was due mainly to the decrease in cash and bank balance.

9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.

The performance for 3Q2015 and 9M2015 is in line with the commentary made in item 10 of the Company's results announcement dated 14 August 2015.

10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

For the nine months ended 30 September 2015 ("9M2015"), the Group continued to operate under a highly competitive and challenging environment as the zipper industry in the PRC faces intense competition with thin profit margins. Apart from the challenging and competitive business environment, the Group also faces weak demand for zippers as most of its customers still hold a high level of inventories in their warehouses. As such, the Group had to lower its selling prices to retain customers and attempt to increase sales orders.

The average utilization rates of the Group's production facilities in 9M2015 for zipper chains and zipper sliders were approximately 80% and 55% respectively.

The Group expects the zipper industry to remain highly challenging and competitive. The Group expects the continuation of the slowing economic growth in the PRC, uncertainties for export sales, as well as cost pressures arising from rising production costs and labour costs. These factors will affect the Group's operating outlook for the next twelve months.

The Group will continue to strive to enhance its operational efficiency of its plants through automation of its production processes, so as to mitigate the impact of weak demand to the

Group's gross profit margins. The Group will also continue to exercise tight control on the administrative expenses and strive to lower its production unit cost.

Update on Construction progress of the Company's Xiamen Headquarter

As of to-date, the HQ Project is approximately 75% completed. The Group had obtained shareholders' approval on 28 April 2015 to dispose part of the office building of the HQ Project when opportunity arises.
