FY2016 vs. FY2015

Revenue

The Group's revenue increased by RMB 130.3 million (or 19%) to RMB 832.3 million. This was mainly due to the increase in the sales of the Trading segment (RMB 152.2 million) and the Zipper Slider segment (RMB 10.0 million). The increase was partially offset by the decrease in revenue contributions from the Zipper Chain segment (RMB 32.7 million), and the Processing segment (RMB 3.1 million).

The inter-segment sales elimination represented the dyeing and electroplating services provided by the Processing segment to the Zippers segment.

The increase in revenue for the Zipper Slider segment was mainly due to the increase in sales volume arising from the better quality achieved following the partial automation of the Group's plant and machinery in the production of zipper sliders.

The decreases in revenue from the Zipper Chain segment and the Processing segment were attributable to a deteriorating market for the zipper industry in the PRC which was adversely affected by the general slowdown in the global economy. This had resulted in the decrease in sales orders from customers.

The Group's Trading segment relates to the sourcing and buying of certain raw materials in accordance to customers' requirements. The profit margin and all purchases were based on confirmed sales. As such, the volume of trading depends on the opportunities available so as the profitability and price movements which are dependent on customers' demand for raw materials. The increase in revenue from the Trading segment was due to an increase in sales orders from customers during FY2016.

Gross Profit and Gross Profit Margin

The Group's gross profit increased by RMB 0.7 million (or 1%) to RMB 48.8 million. The increase was due mainly to the increases in revenue from the Trading segment.

Average gross profit margin decreased by 1.0 percentage point to 5.9% due to the decrease in gross profit margin from the Zipper Chain segment in FY2016 arising from the decrease in sales order from customers and higher production costs due mainly to higher raw materials cost.

Other income and other expenses

Other income mainly comprised gain on disposal of Qingdao HS, government subsidies, refund of unclaimed cash dividend distribution, rental income and foreign exchange gains while other expenses represented impairment loss on investment properties and donations. The net expenses represented the impairment loss on investment properties (RMB 37.0 million) which was partially offset by the gain on disposal of Qingdao HS (RMB 12.8 million). (Refer to page 6 Note B for details) and the foreign exchange gain of RMB10.9 million. The foreign exchange gain arose from the depreciation of RMB against USD and SGD in the Group's foreign currencies denominated bank balances and from the translation of HK dollar denominated balances owing from subsidiaries in the Company's book due to depreciation of RMB against HK dollar.

Selling and distribution expenses

Selling and distribution expenses decreased by RMB 1.0 million (or 14%) to RMB 6.3 million as a result of decrease in staff costs due to a leaner sales force.

General and administrative expenses

General and administrative expenses increased by RMB 35.0 million (or 59%) to RMB 94.2 million. This was mainly due to allowance for doubtful trade receivables of the RMB 13.2 million, allowance for doubtful other receivables of RMB 16.0 million, and written off of spare plant and equipment of RMB 16.4 million.

The allowance for doubtful trade receivables increased by RMB 7.4 million to RMB 13.2 million as a result of longer credit period request from some customers. Due to the economy slowdown in the PRC, the Group's customers had requested for longer credit terms. The Group had obliged to its customers' request for longer credit terms in order to retain the customers. According to the Group's accounting policy, the extended credit period will be accounted for as allowance for doubtful debts on a prudent basis.

These customers are solvent and continue to trade with the Group on a regular basis. Management is closely monitoring the collections of these customers and for the cases of long outstanding debts, the sale representatives would collect the outstanding balances from them in person. So far, there are no cases of non-payment from these customers and accordingly, no legal actions are required.

As at 31 December 2016, the provision for doubtful other receivables referred to debts more than 6 months provided for Qingdao HS which amounted to RMB16.0 million. Please refer to page 6 Note B for details.

The Company had written off its spare plant and machineries, having successfully installed its automation machineries in FY2016.

Finance income and expenses

Finance expenses increased by RMB 0.3 million (or 2%) to RMB 14.2 million. This was attributable to the increase in short-term loans and bills transactions with banks. Finance income increased by RMB 0.3 million (or 16%) to RMB 2.0 million due mainly to the increase in interest rate.

Notes:

¹ Current tax increased by RMB 0.7 million or 30% due to the increase in taxable profit before taxation in FY2016.

² On 22 February 2008, the State Administration of Taxation of China issued a circular Caishui 2008 No.001, which stated that distribution of dividends from profits accumulated from 1 January 2008, shall be subject to a withholding tax on distribution to foreign investors. Accordingly, the Group has provided for deferred tax liabilities on the Group's profit-making PRC subsidiaries' net profit attained from 1 January 2008 onwards. As Jade Star (the PRC's subsidiaries' immediate holding Company) is incorporated in the British Virgin Islands, the applicable withholding tax rate is 10%.

- ³ Deferred tax arises from the temporary differences in fair value of investment property and depreciation of property, plant and equipment.

4Q2016 vs. 4Q2015 (3 months)

Revenue

The Group's revenue increased by RMB 29.4 million (or 14%) to RMB 234.6 million. The increase was due mainly to the increase in sales of the Zipper Slider segment (RMB 5.8 million), the Trading segment (RMB 25.6 million), and the Processing segment (RMB 1.2 million). The increase was partially offset by the decrease in revenue contributions from the Zipper Chain segment (RMB 3.9 million).

The inter-segment sales elimination represented the dyeing and electroplating services provided by the Processing segment to the Zippers segment.

The increase in revenue for the Zipper Slider segment was mainly due to the increase in sales volume arising from the better quality achieved following the partial automation of plant and machinery in the production of zipper sliders.

The decrease in revenue from the Zipper Chain segment was attributable to a deteriorating market for the zipper industry in the PRC which was adversely affected by the general slowdown in the global economy. This had resulted in the decrease in sales order from customers.

The increase in revenue from the Trading segment was due to an increase in sales orders from customers during 4Q2016.

Gross Profit and Gross Profit Margin

The Group's gross profit decreased by RMB 0.9 million (or 7%) to RMB 12.2 million. The decrease in gross profit was due mainly to the gross loss in the Processing segment as a result of increase in overhead costs.

Average gross profit margin decreased by 1.2 percentage points to 5.2% due to the decrease in gross profit margin from the Zipper Slider segment in 4Q2016 as a result of increase in raw materials costs.

Other income and other expenses

Other income mainly comprised rental income and foreign exchange gains while other expenses represented impairment loss on investment properties. The net expenses represented the impairment loss on investment properties (RMB 37.0 million) which was partially offset by the foreign exchange gain of RMB6.5 million. The foreign exchange gain arose from the depreciation of RMB against USD and SGD in the Group's foreign currencies denominated bank balances and from the translation of HK dollar denominated balances owing from subsidiaries in the Company's book due to depreciation of RMB against HK dollar.

Selling and distribution expenses

Selling and distribution expenses decreased by RMB 0.9 million (or 44%) to RMB 1.2 million as a result of decrease in staff costs due to a leaner sales force.

General and administrative expenses

General and administrative expenses increased by RMB 28.4 million (or 117%) to RMB 52.6 million. This was mainly due to the allowance for doubtful other receivables of RMB 16.0 million, and written off of plant and equipment of RMB 16.4 million.

The Company had written off its spare plant and machineries, having successfully installed its automation machineries in FY2016.

As at 31 December 2016, the provision for doubtful other receivables referred to debts more than 6 months provided for Qingdao HS which amounted to RMB16.0 million. Please refer to page 6 Note B for details.

Finance income and expenses

Finance expenses decreased by RMB 1.3 million (or 27%) to RMB 3.7 million. This was attributable to the decrease in interest rate. Finance income decreased by RMB 0.1 million to RMB 0.2 million as a result of decrease in interest rate.

FINANCIAL POSITION

Non-current assets

As at 31 December 2016, non-current assets amounted to RMB 747.5 million comprising property, plant and equipment, investment property, land use rights, prepayment and intangible assets.

The Group's property, plant and equipment amounted to RMB 241.3 million, a decrease of RMB 43.8 million compared to RMB 285.2 million as at 31 December 2015. The decrease was due mainly to depreciation expenses and written off of spare plant and machineries.

As at 31 December 2016, the investment property represented the recognition of the construction cost of the Group's Xiamen Headquarters project ("HQ Project") under FRS40 - "Investment property is property held to earn rentals or for capital appreciation or both." According to the Group's construction plan, the HQ Project will have 25 floors, and most of the office units will be leased out to earn rental income. Therefore, this property including the land use right was classified as investment property under FRS40. The increase in investment property was due to the recognition of the construction costs incurred which was partially offset by the fair value loss on

investment property of RMB 37.0 million arising from an independent valuation of the investment property by independent valuer.

The decreases in land use rights and intangible assets were due mainly to the amortization expenses.

The prepayment balance in FY2016 represented the deposits paid for purchases of machinery.

Current assets

As at 31 December 2016, current assets amounted to RMB 691.5 million, a decrease of 10.5% (RMB 81.4 million) compared to RMB 772.9 million as at 31 December 2015. This was due largely to the decrease in cash and bank balances.

The Group retained inventories of 2 months' raw materials to satisfy the production requirement for 1Q2017.

Trade and other receivables decreased by RMB 9.2 million from RMB 280.5 million to RMB 271.3 million due to an increase in allowance for doubtful trade receivables as a result of longer credit period request from some customers.

The increase in prepayments to suppliers by RMB 8.7 million (or 13%) to RMB 73.7 million was due mainly to the increase in advances made to certain suppliers. For advances to suppliers, the Group will secure signed supply agreements with its various suppliers. The advance payments in the supply agreements are calculated based on a certain percentage of the total contract price.

Cash and bank balances decreased from RMB 328.6 million to RMB 248.8 million was due mainly to the settlement of withholding tax on distribution of dividends from profits accumulated from 1 January 2008 and also settlement of construction cost of the investment property.

Current liabilities

As at 31 December 2016, total current liabilities were RMB 778.6 million, an increase of 13% (or RMB 87.1 million) compared to RMB 691.5 million as at 31 December 2015. This was mainly attributable to the increase in bills payables to banks, short-term loans, bank overdrafts, other payable and accruals, which was partially offset by the decrease in trade payables.

Trade payables decreased by RMB 1.1 million due mainly to the usage of bills payables to bank for settlement of some trade payables in 4Q2016.

The other payables and accruals increased by RMB 27.2 million to RMB 253.0 million was due mainly to the accrual of the construction costs for the building of the Group's Xiamen Headquarters.

Short-term bank loans increased by RMB 48.1 million (or 16%) to RMB341.3 million due to proceeds from new banking for working capital, please refer to page 4 for further information.

Bank overdrafts represented the drawdown of the banking facilities from Hang Seng Bank.

The amount due to a Director was due to funds contributed by Mr Hong Qing Liang for the Group's Xiamen Headquarters construction project. The construction costs were paid by Mr Hong from his personal bank account in Hong Kong first and reimbursed by the Company. This arrangement was undertaken as the local government of Xiamen Island will impose an interest tax on all monies transferred from other locations within the PRC. Remittances from Hong Kong and foreign countries are exempted from such tax.

Non-current liabilities

Non-current liabilities comprise deferred tax liabilities. The decrease in deferred tax liabilities was due mainly to the settlement of withholding tax as explained above under the note for tax expense.

CASH FLOW

Operating activities

Net cash flows generated from operating activities in FY2016 amounted to RMB 15.2 million compared to RMB 46.5 million in FY2015. For 4Q2016, net cash flows generated from operating activities amounted to RMB 26.3 million compared to RMB 70.8 million in 4Q2015.

This was due mainly to the higher increase in prepayments to suppliers and the smaller decrease in inventories in both FY2016 and 4Q2016.

Investing activities

Net cash flows used in investing activities in FY2016 amounted to RMB 135.9 million compared to RMB 76.5 million in FY2015; and net cash flows used in investing activities in 4Q2016 amounted to RMB 21.5 million compared to RMB 32.3 million in 4Q2015. This was mainly due to the RMB 136.5 million construction cost of the investment property in FY2016 compared to RMB71.8 million in FY2015 while in 4Q2016 it was RMB 20.2 million construction cost compared to RMB34.3 million in 4Q2015. The increase in construction cost in FY2016 was mainly due to the higher progressive payments made in the final stages of construction progress and renovation works.

Financing activities

Net cash flows generated from financing activities in FY2016 amounted to RMB 39.9 million compared to RMB 71.6 million in FY2015, and for 4Q2015, the amount was RMB 22.0 while net cash flows used in financing activities in 4Q2016 amounted to RMB 13.3 million. This was due mainly to higher net cash inflow from short-term bank loans and banking facilities in FY2015 and 4Q2015, please refer page 3 for further information.

9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.

The performance for 4Q2016 and FY2016 is in line with the commentary made in item 10 of the Company's results announcement dated 10 November 2016.

10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

The Group continues to operate under a highly competitive environment as the zipper industry in the PRC faces intense competition with razor thin profit margins.

In addition, the slowing down of economic growth in the PRC, uncertainties for export sales, cost pressures arising from rising production costs will affect the Group's operating outlook for the next twelve months.

In view of the challenging business environment, the Group will strive to keep a tight rein over the operating costs and monitor its receivables and collections closely.

Update on construction progress of the Company's Xiamen Headquarters ("HQ Project")

As of to-date, the HQ Project is approximately 99% completed. After the completion of the repair works caused by the "Mereanti Super Typhoon", the decoration work for the HQ Project had re-commenced. The HQ Project is on schedule to complete by the second quarter of 2017. Upon completion, the Group will lease part of the office building for rental income.
